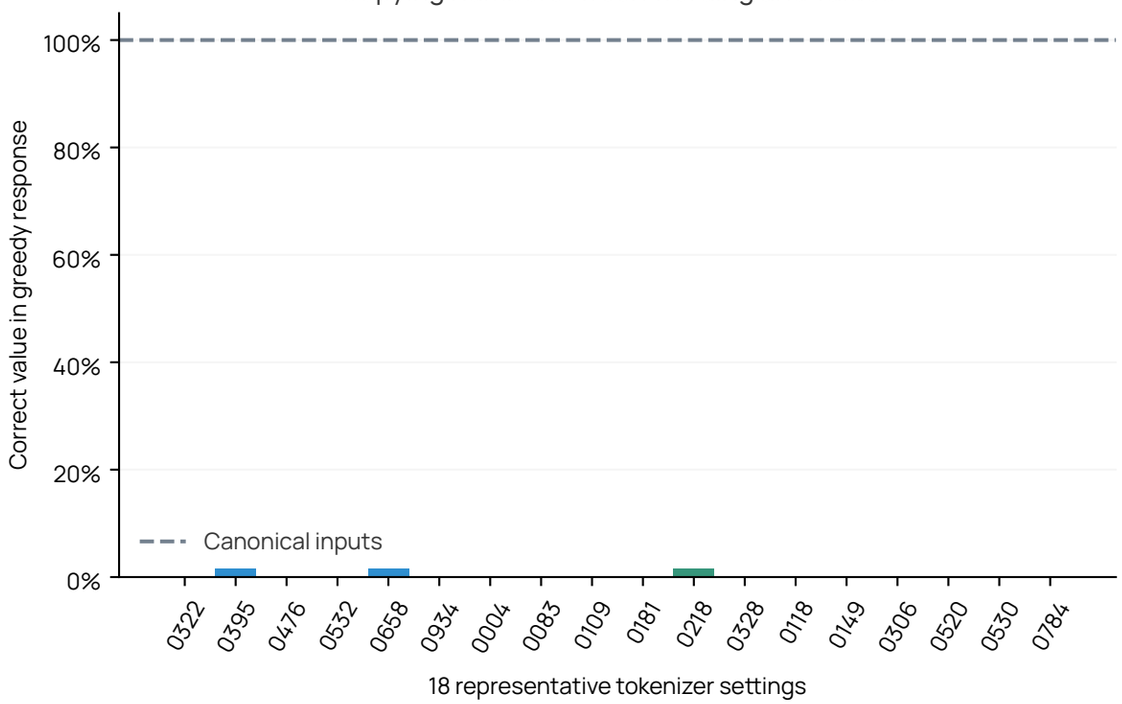
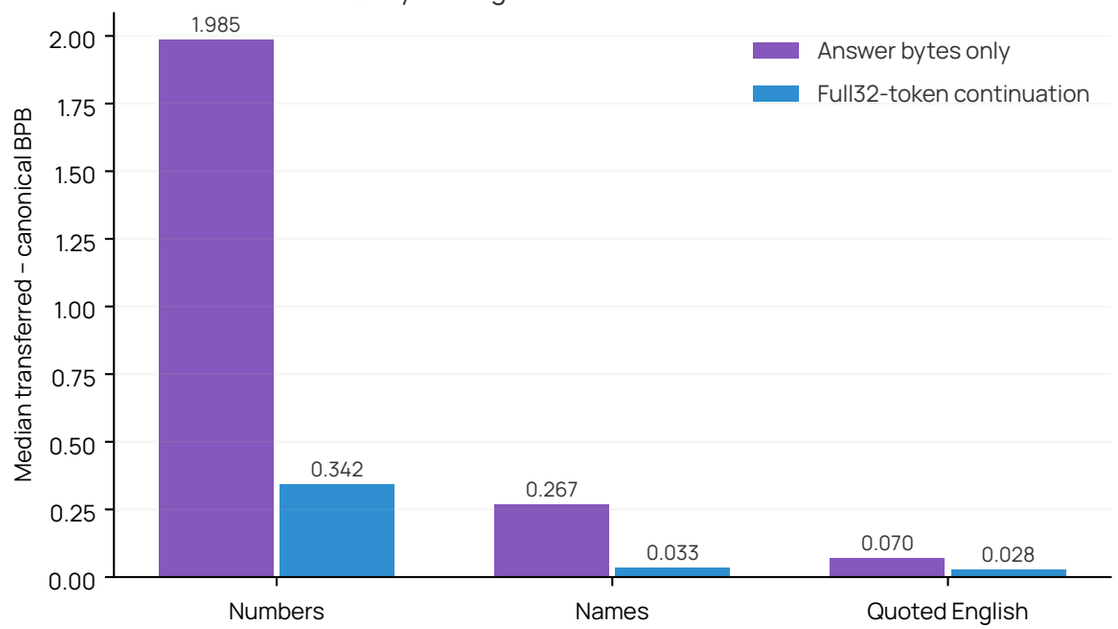
RL20k · a general weakness in exact numerical recall

18 representative settings ·3 algorithms ×3 pretokenizers ×2 vocabulary scales · same model and raw text · ≤128 positions

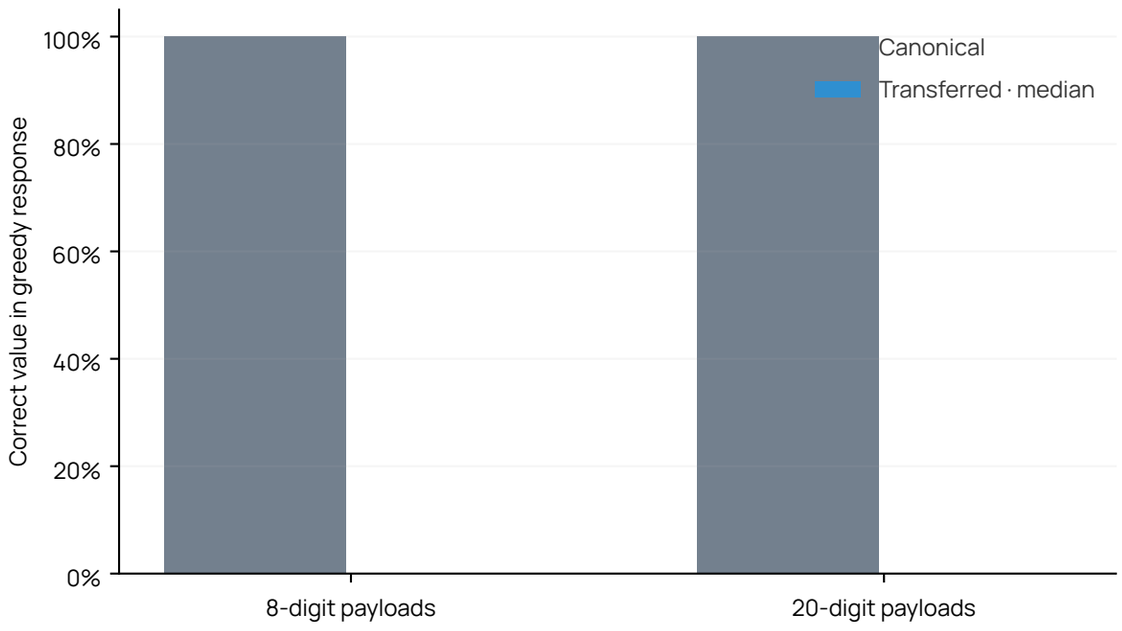
Copying numbers · fresh wording and values



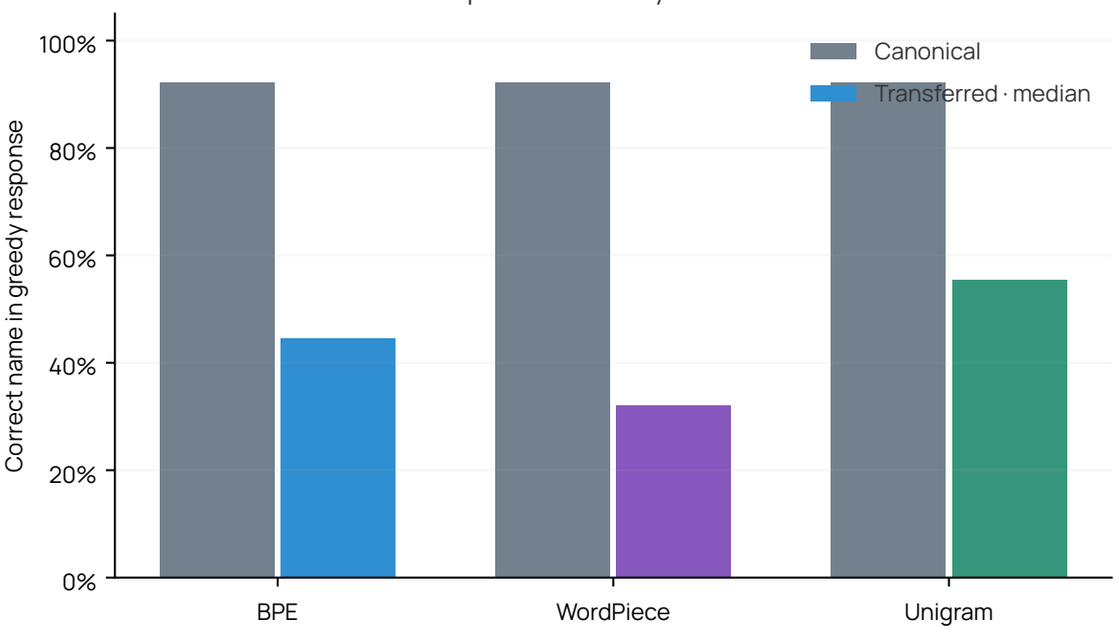
Easy trailing text can dilute the task error



The failure includes shorter numbers



Names: accept the value anywhere in the answer



Controlled stress tasks; not an estimate of average natural-text performance. Fresh confirmation uses new wording.
Accuracy accepts the correct value anywhere in32 free-running output tokens, including equivalent numeric formatting. Loss panels score teacher-forced canonical targets.
